

18" PVC Traffic Cones

Brand: CTR

Material: Polyvinyl Chloride (PVC)

Color: Fluorescent orange with black base

Height: 18" (450 mm)

Weight: 3.3 lbs (1.5 kg)

Reflective Band: White high intensity prismatic grade sheeting

Reflective Band Width: 4" (10 cm)

Band Position: 3" (76.2 mm) from top of cone

Temperature Resistant: Will not deform at a temperature of 65 °C (150°F)

Ideal for night time use, roadside emergencies, road safety and hazard marking. Frequently used by schools, municipalities, government agencies, traffic control experts, property maintenance companies, construction and utility companies and many more. Our specially designed base allows for easy stacking. The large weighted base provides superior wind resistance and allows the cone to firmly grip the road to help prevent being turned over or blown down.
